

INDOOR SORTED-WASTE COLLECTION

SAFETY-max

Secure container for the collection of expired medicines,
sharp items, needles and syringes

INDOOR SORTED-WASTE COLLECTION

SAFETY-max

SAFETY-max is Mattiussi Ecologia's solution for the safe and orderly collection of expired medicines, sharp items, needles and syringes, in the home or elsewhere. By opening the lid, large items can be placed inside, while the screw-capped opening with safety locking device, built into the lid itself, allows smaller items such as needles or syringes to be posted in. Comes as standard with a white body and red lid.

TECHNICAL DETAILS:

Material:

- virgin or recycled polypropylene, 100% recyclable

Process:

- injection molded
